

Recognizing Poor Problem Definitions

in Southeast Asian Natural-Resource Policies and Programs

By Professor William Ascher

Professor of Government and Economics
Claremont McKenna College

**Chair+Discussant:
Professor Jin Sato**

Institute for Advanced Studies on Asia,
The University of Tokyo

LECTURE SERIES #04

By GAS (Global Asian Studies), Institute for Advanced Studies on Asia, UTokyo

28 September 2023 (THU)

10:00-12:00 (JST)

@ ZOOM / Main Conference Room
Institute for Advanced Studies on Asia(IASA), UTokyo

Because poor problem definitions undermine natural-resource policies in Southeast Asia, identifying mis-specified problem definitions, and why they occur, is useful to avoid poor policies and programs in conservation, user rights, forestry, fisheries, and non-timber agriculture. Examples from Indonesia, Laos, Malaysia, Thailand, and Vietnam are presented.
